EDUCATION

Stony Brook University Expected May 2027
B.S. in Applied Mathematics & Statistics; Minor in Electrical Engineering (GPA: 3.5/4.0) Stony Brook, NY
• Relevant Coursework: Probability Theory, Data Analysis, Quantitative Finance, Linear Algebra, Differential Equations, Random Signals

PROFESSIONAL EXPERIENCE

Fourier Fund of Stony Brook University Oct. 2025 – Present
Senior Financial Analyst Stony Brook, NY
• Led all financial modeling for Linde plc (LIN) coverage: full three-statement model, trading comparables, and DCF valuation to derive a price target; pitch approved and LIN selected as a buy for the fund's portfolio
• Constructed revenue, cost, and operating schedules from 10-K filings to underpin the DCF; ran weekly market updates on macro and sector news for a 30+ member fund

Chaotic Good Projects Sept. 2025 – Present
UGC & Social Media Marketing Contractor Remote
• Run faceless UGC pages promoting company campaigns; grew a social account to 4,000 followers and 6.5M+ likes
• Devise content strategies to promote music and align posts with brand campaigns

Stony Brook University Department of Applied Mathematics Fall 2025, Spring 2026
Undergraduate Teaching Assistant (AMS 210 Linear Algebra; AMS 303 Graph Theory) Stony Brook, NY
• Graded homework and exams for 180+ students across two courses, providing consistent and accurate evaluation of quantitative coursework
• Led weekly office hours to support student understanding of linear algebra and graph theory concepts

Jag International Trim June 2024 – Sept. 2024
Project Data Intern New York, NY
• Collaborated with the CFO to audit and consolidate legacy Excel datasets, improving data integrity for financial reporting by 30%, and analyzed product data to surface cost-saving opportunities

VENTURES & TECHNICAL PROJECTS

VolumeUGC (AI Video / UGC SaaS) 2025 – Present
Founder & Builder Remote
• Building and shipping an AI-powered web app that generates and edits UGC-style marketing videos, taking the product from idea to a live, paying-user-ready platform
• Own the full stack end to end: Next.js web app on Vercel, a video-rendering pipeline, Stripe billing, and the marketing site

ABS Loan Default Model | Excel, Project Lead Jan. 2026 – Present
• Built a 100-loan ABS model in Excel (PD/LGD from S&P) with a two-tranche waterfall and three-scenario stress testing to quantify downside risk to senior noteholders

Stochastic Risk Modeling & Volatility Analysis | Python, Project Lead Sept. 2025 – Dec. 2025
• Built a Python Monte Carlo framework (10,000 paths) to project asset volatility and tail-risk exposure

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Rock Climbing Club of Stony Brook University Aug. 2024 – Present
Co-Founder & Vice President Stony Brook, NY
• Relaunched the club post-hiatus, growing membership by 300, securing \$500+ in early fundraising, and managing \$400+ in funds after winning probationary budget approval

RELEVANT SKILLS

Technical: Excel (Advanced), Financial Modeling, Python (Pandas, NumPy), Data Visualization, PowerPoint
Web & Tools: Next.js, Stripe, Vercel, GitHub, Google Sheets, Figma, Notion, Canva
Languages: English (Native), Mandarin Chinese, Fuzhounese
